

Introduction :

MYSELF

- This is Kontham Venkatesh, I am from Hyderabad. I completed my graduation in 2017 BSC(MSC's) – Statistics
- I am an Enthusiastic Fresher looking for Opportunities where I can improve my knowledge and Skills. Before this I used to run my own business now I want to start my career in an Software industry so to achieve my goals I stepped into the course to fulfill my dreams.

Reason of Choosing this Course :

- I choose this course because of a successful career. I enjoy Analysing data and Implement coding.
- I enrolled in this course to learn more about the coding, analysing and how it works.
- This Course perfectly fits for me and I genuinely enjoy and feel motivated to learn more about the Course.
- Taking up a professional course improves our performance in a career. So now a days Data Science is leading in the IT industry so it helps us to achieve a great career.

This Opportunity is really exciting for me, the way of developing my career forward. I feel I will succeed in the role because as I am much excited to learn new things and I believe my skills are well suited to this job.

Thank You
